To the Minister
The Department of Making Life Boring

Dear Sir,

I have discovered, to my unmitigated horror, that plans are afoot to make a phonograph recording of that disgusting 2 JJJ radio serial 'Dr Poo'.

It is beyond my comprehension how these pinko perverts (see photos attached) were ever allowed to broadcast such subversive muck in the first place, let alone be permitted to sell their grubby wares to the unsuspecting public. As we all know, it is the kiddies who will suffer, their pure young minds tainted, and their soft shapely bodies violated.

Sir, I strongly suggest that this proposed record never see the light of day, and that those responsible be castrated immediately.

Yours Sincerely

Arthur Policeforce
